

SEGNANA

BIO

This certified organic grappa is obtained from the pomace of white grapes from Trentino, which contribute its elegant floral note, and those of red grapes (also grown in Trentino), which give it its personality and attractive fruity sensations. Crystal-clear in colour, it will charm you with its mellowness and fine, persistent aromas.

Enjoy it cool, at a temperature of 12-14°C (54-57°F), in a tulip-shaped glass.

40% vol.
